Hi <<First Name>>,

Summer is approaching fast, and construction is in full swing across all areas of the **I-Move Kentucky** project. As temperatures rise and activity increases, it's crucial to be alert and to drive cautiously in active work zones.

I-Move's innovative [four-in-one project approach](#) allows crews to work on all sections of the project simultaneously. Even if you don't see crews everywhere on your commute, the project is progressing at full speed to enhance your travel experience on the Gene Snyder Freeway.

For the latest updates about the I-Move Kentucky project, visit the project website, [I-MoveKY.com](https://www.imateky.com). You can also stay connected and receive the latest news and traffic alerts by following along on [Facebook](#) and [Twitter](#). To sign up for traffic alerts straight to your phone, text "IMOVEKY" to 41372.

I-64/Blankenbaker Parkway Updates

Drivers should expect delays on I-64 near Blankenbaker Parkway until construction in that area is completed later this summer. Lanes have been reduced and construction is in full swing, starting with blasting and sound wall work. This work will expand the ramp to two lanes at Blankenbaker westbound once it's completed.

WHAT'S AHEAD

Major traffic switch planned for early June

Drivers should prepare for a significant change in traffic patterns starting in early June. A new ramp from I-64 E to I-265 N is opening as part of I-Move Kentucky's ongoing improvements. By the project's completion, 2 of the 4 cloverleaf ramps will be removed.

This new ramp will increase safety for all road users. Additionally, the ramp will significantly reduce congestion, making daily commutes more efficient. This is a significant step forward in improving overall safety and a more efficient travel experience for everyone who travels I-64 E and I-265 N.

PROGRESS

Project milestone: Final beams set!

On Monday, May 20, crews set the final beams of the I-Move Kentucky project at the bridge, which is a part of the I-64/I-265 interchange. This is another exciting step toward the completion of the project. Eventually, this bridge will carry traffic for commuters who travel I-265.

ABOUT I-MOVE KENTUCKY

The I-Move Kentucky project includes improvements to four major sections of I-265, I-71 and I-64 through a heavily traveled corridor in Jefferson and Oldham counties. Work on the I-Move project is scheduled to continue until fall of 2024. To stay up to date with the project's progress, visit I-Move KY.com.
